## **1.0 Introduction**

This syllabus for Form V-VI replaces the 1997 edition which has been phased out. This syllabus has been introduced for implementation as a response to research findings that were obtained in 2008. It is also designed to meet the demands of the Secondary Education Development Plan (SEDP). The revision process has observed a change in paradigm from that of Content-based to a competence-based curriculum. The teaching and learning processes using this reviewed syllabus should be student centered and activity oriented. Students are expected to be engaged in a variety of activities which culminate in learning. The new topic of the concept of Accountancy has been added to Form Five Syllabus due to the reason that it has been taught but there were no specific objectives and teaching learning strategies shown in previous syllabus.

The topic royalties has been added to Form Six Syllabus because of its demands in mining industry day to day business transaction and it's relevance due to the changes of forms of business.

## **2.0 Objectives of Education in Tanzania**

The general aims of education in Tanzania are to:

1. Guide and promote the development and improvement of the personalities of the citizens of Tanzania, their human resources and effective utilization of their resources in bringing about individual and national development.
2. Promote the acquisition and appreciation of culture, customs and traditions of the people of Tanzania.
3. Promote the acquisition and appropriate use of literary, social, scientific, vocational, technological, professional and other forms of knowledge, skills and understanding for the development and improvement of man and society.
4. Develop and promote self-confidence and an inquiring mind, an understanding and respect for human dignity and human rights and a readiness to work hard for personal self advancement and national improvement.
5. Enable and expand the scope of acquisition, improvement and upgrading of mental, practical productive and other life skills needed to meet the changing needs of industry and the economy.
6. Enable every citizen to understand the fundamentals of the national constitution as well as the enshrined human and civic rights, obligation and responsibilities.
7. Promote the love for work, self and wage employment and to improve performance in the production and service sectors.
8. Inculcate principles of national ethic and integrity, national and international cooperation, peace and justice through the study, understanding and adherence to the provision of the National Constitution and International basic charters.
9. Enable a rational use, management and conservation of our environment.

### **3.0 Aims and Objectives of Secondary Education**

1. Consolidate and broaden the scope of baseline ideas, knowledge, skills and principles acquired and developed at primary education levels.
2. Enhance further development and appreciation of national unity, identity and ethic, personal integrity, respect for human rights, and moral values, customs, traditions and Civic responsibilities, obligations and readiness to do both mental and manual work.
3. Promote the development of competency in linguistic abilities and effective use of communication skills in Kiswahili and in at least one foreign language.
4. Promote opportunities for the acquisition of knowledge, skills, attitudes and understanding in prescribed or selected fields of study.
5. Prepare students for tertiary and higher education; vocational training, technical and professional.
6. Inculcate a sense and ability for self-study, self-reliance and self-advancement in new frontiers of science and technology, academic, occupational knowledge and skills and
7. Prepare the student to join the world of work.

### **4.0 General Competences for the Subject**

By the end of this course, the student should demonstrate ability to:

1. Communicate competently and confidently by speaking, listening reading and writing in business transactions and by using other forms of communication where appropriate;
2. Recognize and use numerical patterns and relationships confidently and competently in accounting.
3. Think reflectively and logically in accounting information for decision making.
4. Manage time effectively and efficiently in recording financial data.
5. Work effectively, independently with others as members of a team, group, organization and community.
6. Take responsibility as a member of a group for jointly decided actions and decisions in accounting discipline.
7. Make appropriate use of technology in solving problems at the individual and community level.
8. Use science and technology effectively and critically showing responsibility towards the Accounting procedures.
9. Demonstrate and understand of the world of business transactions as a set of related systems by recognizing that problem solving contexts do not exist in isolation.
10. Collect, analyze, organize, interpret and critically evaluate financial information.

### **5.0 General Objectives for the subject**

By the end of this course, the student should be able to:

1. Define and explain the subject matter of accountancy.
2. Distinguish the various Accounting systems concerning financial matters and records.
3. Have a sound knowledge of the routine aspects of Accounting function of recording and classifying the financial data of various business formations.

4. Have a sound knowledge of the analytical and interpretive aspects of the Accounting function of analyzing, interpreting financial data and reporting the meaningful implications of this data.
5. Create business opportunities, creatively solve problems and take risks, respecting the rights of others and environmental sustainability.
6. Acquire and apply essential business knowledge, skills and principles to productively and profitably conduct business in changing business environments.
7. Commit to develop him/her and others through business opportunities.
8. Communicate effectively on reporting financial matters.

## **6.0 Organization of the subject syllabus**

This syllabus has a slightly different structure compared to that of 1997. The following items were added for improvement: General competences for the whole course, competences for each class, that is form five and form six, suggested areas for assessment and number of periods for each specific objective.

### **6.1 Class Competences**

Competences are skills, knowledge and attitudes attained by the learner after the learning process. Competences have been stated for each class/ level of Accountancy course. The class level objectives are derived from the class level competences.

### **6.2 Class Objectives**

For each competence intended to be demonstrated, one or more objectives have been stated in order to achieve it. The general objectives for form five to form six are stated in general terms to indicate the scope of content to be covered within each level.

### **6.3 Content Matrix**

#### **6.3.1 Topics/Sub – topics**

The topics have been derived from the class level competences and objectives. Some topics in the 1997 Accountancy syllabus have been retained. Cross Cutting Issues (CCI) have been added. Sub – topics have been arranged to attain a logical order starting from the simple to the most difficult ones. Both block and spiral arrangements of topics have been adopted.

#### **6.3.2 Specific Objectives**

Each sub – topic has one or more specific objectives. These specific objectives have expected outcomes in classroom instruction. They also reflect the process to attain competences within the cognitive, affective and psychomotor domains.

#### **6.3.3 Teaching and Learning Strategies**

The column of teaching and learning strategies indicates what the teacher and students ought to be doing during the teaching and learning process. Students are encouraged to work in small groups for maximum participatory and cooperative learning. The teacher shall assume the role of a facilitator to promote, guide and help students' learning activities. The whole teaching and learning process should be participatory and interactive where students learn by doing a series of logical activities.

These suggested teaching and learning (T/L) strategies are not exhaustive. However, the teacher is insisted to use the teaching strategies indicated plus any other that suits the teaching learning environment.

#### **6.3.4 Teaching and learning Resources**

In the teaching of Accountancy a great variety of teaching-learning resources will be needed in quality and quantity. In case the commercial varieties of teaching and learning resources are not available, the teacher should work with students to collect or improvise alternative resources available in the environment.

#### **6.3.5 Assessment**

For every specific instructional objective, there is/are some suggested question(s) or areas for assessment. Formative and summative assessments should be geared towards mastery of the competences and skills developed within the course.

#### **6.3.6 Number of Periods**

The column of number of periods is a proposal of duration to be used to teach a given sub-topic. The number of periods has taken into account the time needed to adequately cover the sub-topic. Some topics needs more time than others.

### **7.0 Instructional Time**

This syllabus is to be covered in two academic years, each having approximately 194 instructional days including two weeks reserved for mid-year and annual examinations. The number of periods for teaching this syllabus is 10 periods of 40 minutes per week. The teacher is advised to make maximum use of time allocated in classroom instruction. Lost instructional time should always be compensated for.

### **8.0 Assessment of the subject**

The table below shows the type of assessment and the accompanied assessment measures to be used.

The assessment measures listed in the table contribute to continuous and final assessment of the student achievement. The frequency for each assessment measure has been indicated with the weight in percentage. You are therefore strongly advised to apply a wide selection of assessment measures in order to develop students' ability for the mastery of the subject matter during the teaching and learning process.

Type of Assessment	Assessment measure	Frequency				Weight %	Total %
		V	T1	T2	V		
Continuous Assessment	Project			1	1		10
	Written reports	1	1	1			5
	Oral reports	1	1	1			5
	Individual assignment	1	1	1			5
	Tests	2	2	2			10
	Terminal exams	1	1	1		15	50
Final Exams	National exams				1	15	50
					Total Marks	100

## **FORM V**

### **CLASS COMPETENCES**

By the end of Form Five, student should demonstrate ability to:

1. communicate competently and confidently by speaking, listening, reading and writing in business transactions and by using other forms of communication where appropriate.
2. recognize and use numerical patterns and relationships confidently and competently in accounting.
3. think reflectively and logically in accounting information for decision making.
4. work effectively, independently, with others as members of a team, group, organization and community.
5. manage time effectively and efficiently in recording financial data.

### **CLASS OBJECTIVES**

By the end of this course, the student should be able to:

1. define and explain the subject matter of Accountancy.
2. distinguish the various Accounting systems concerning financial matters and records.
3. have a sound knowledge of the routine aspects of Accounting function of recording and classifying the financial data of various business formations.
4. communicate effectively on reporting financial matters.

TOPIC/SUB TOPICS	SPECIFIC OBJECTIVES	TEACHING AND LEARNING STRATEGIES	TEACHING AND LEARNING RESOURCES	ASSESSMENT	ESTIMATED NO. OF PERIODS
1.0 THE NATURE AND CONTEXT OF ACCOUNTING  1.1 The Concept of Accountancy	By the end of this sub-topic the student should be able to: a) explain the origin of the term accountancy	i) Students to brainstorm on the origin of the term accountancy, using library search. ii) Teacher to assign students to find out the origin of accountancy from knowledgeable people, books and internet for discussion and clarification.	Library and internet search	Is a student able to explain the origin of the term accountancy?	2
	b) describe branches of accounting	Through the information from library and internet sources, teacher and students to use questions and answers technique to attain/arrive to the branches of accounting such as, financial accounting and management accounting.	Library and internet sources.	Is a student able to describe branches of accounting?	2
	c) discuss the purpose and role of accounting	(i) By using library search teacher to guide students on the discussions of the role and purposes of accountancy. (ii) Teacher to provide individual assignment to the students on the role and purpose of accountancy.	Library search	Is a student able to discuss the purpose and role of accounting?	2
1.2 Accounting Information.	By the end of this sub-topic the student should be able to: a) identify the qualities of accounting information.	Teacher and students to use the technique of the questions and answers to identify the qualities of accounting information such as fair presentation, materiality, consistency etc, by searching information from library.	Library search	Is a student able to identify the qualities of accounting information?	4
	b) identify the users of accounting information and their information needs.	(i) Teacher to guide students to use diagram or charts to identify on the users of accounting information and their information and their	Diagram or chart showing the users of accounting information and their information and their	Is a student able to identify the users of accounting information?	4

		<p>Through think-pair and share, teacher to guide the students on the explanation of the purposes and structure of the statements of financial position and its items, non-current assets (Fixed Assets), non-current liabilities, current liabilities and equity (Capital) using library search.</p>	<p>Library search and International Financial Reporting Standards (IFRS)</p>	<p>Is a student able to explain the purpose and structure of the statements of financial position?</p>	5

TOPIC/SUB TOPICS	SPECIFIC OBJECTIVES	TEACHING AND LEARNING STRATEGIES	TEACHING AND LEARNING RESOURCES	ASSESSMENT	ESTIMATED NO. OF PERIODS
b) prepare a simple statement of financial position from a trial balance using as per International Accounting Standards (IAS).	Teacher to guide students to prepare a simple statement of financial position from a trial balance as per International Accounting Standards (IAS) format.	IAS Charts of accounts	Is a student able to prepare a simple statement of financial position from a trial balance using as per International Accounting Standards (IAS)?	8	
	c) record all the necessary ledger accounts and journal entries towards the preparation of trading and profit or loss accounts (statement of comprehensive Income) and statement of financial position.	i) Teacher to guide the students to discuss recording of all necessary ledger accounts and journal entries for the preparation of statements of comprehensive income and statement of financial position as per International Accounting Standards (IAS) format. ii) Teacher to provide assignment to the students on recording ledger accounts and journal entries for the preparation of statements of comprehensive income and statements of financial position.	Charts of accounts	Is a student able to record all the necessary ledger accounts and journal entries towards the preparation of trading and profit or loss accounts (statement of comprehensive Income) and statement of financial position?	10
<b>7.0 FINANCIAL STATEMENTS ANALYSIS AND INTERPRETATION</b>	<b>7.1 Concepts of Financial Statements Analysis</b> By the end of this sub-topic the student should be able to: a) explain the meaning of financial statements analysis and accounting ratios.		Library and Internet search	Is a student able to explain the meaning of financial statements analysis and accounting ratios?	2

TOPIC/ SUB TOPICS	SPECIFIC OBJECTIVES	TEACHING AND LEARNING STRATEGIES	TEACHING AND LEARNING RESOURCES	ASSESSMENT	ESTIMATED NO. OF PERIODS
b) Determine the purpose of financial statements analysis.	assignment on the meaning of financial statements analysis and accounting ratios.	i) Using information from library and internet search, students to discuss the purposes of financial statements analysis. ii) Teacher to summarize discussion for the purposes of financial statements analysis and give conclusion.	Library and Internet search	Is a student able to determine the purpose of financial statements analysis?	2
7.2 The computations of accounting ratios	At the end of this sub-topic the student should be able to: a) Identify different accounting ratios	i) Teacher to guide students to identify types of accounting ratios using Library and Internet search. ii) Students to form groups to discuss types of accounting ratios using library and Internet search. iii) Teacher to give assignment to the students on identification of types of accounting ratios.	Library and Internet Search	Is a student able to identify different accounting ratios?	2
7.3 Interpretation of Accounting Ratios	b) Compute relevant accounting ratios	c) Teacher to demonstrate to the students to compute relevant accounting ratios d) Teacher to give individual assignment to the students to compute relevant accounting ratios.		Is a student able to Compute relevant accounting ratios?	10
	By the end of this sub-topic the student should be able to interpret on the results of computed accounting ratios.	i) Teacher to guide students to discuss on the interpretation of the results of computed accounting ratios by using prepared questions.	Library search	Is a student able to interpret on the results of computed accounting ratios?	8

TOPIC/SUB TOPICS	SPECIFIC OBJECTIVES	TEACHING AND LEARNING STRATEGIES	TEACHING AND LEARNING RESOURCES	ASSESSMENT	ESTIMATED NO.OF PERIODS
7.4 Limitations of Financial Ratios	By the end of this sub-topic the student should be able to discuss the limitations of ratio analysis.	ii) Teacher to conclude and give individual assignment on computed accounting ratios. i) Students to brainstorm in groups by discussing the limitations of financial ratios in class. ii) Teacher to give recommendation for the limitations of financial ratios as discussed in the class.	Library search	Is a student able to discuss the limitations of ratio analysis?	3
8.0 INVESTMENT ACCOUNT	By the end of this sub-topic the student should be able to explain the meaning of financial stocks and shares.	Teacher to guide students to discuss the meaning of financial stocks and shares by using library search.	Library search	Is a student able to explain the meaning of financial stocks and shares?	2
8.1 Financial stocks and shares	By the end of this sub-topic the student should be able to explain the meaning of financial stocks and shares.		Library and Internet Search	Is a student able to discuss the meaning of the term investment?	1
8.2 Concept of Investment	By the end of this sub-topic the student should be able to discuss the meaning of the term investment.	i) Students to brainstorm in groups to discuss the meaning of investment by using library and internet search. ii) Teacher to guide students to discuss on the meaning of the term investment.			
8.3 Ex-div and Cum-div	By the end of this sub-topic the student should be able to: a) describe the term ex-div and cum-div.  b) distinguish between ex-div and cum-div.	Teacher and students to discuss the meaning of "exclude dividend" (Ex-div) and "include dividend" (cum-div) on purchase and sale of investment by using charts of accounts.	Charts of accounts	Is a student able to describe the term ex-div and cum-div.	1
		i) by using the information from library, students to form groups to discuss the difference between ex-div and cum-div.	Library search	Is a student able to distinguish between ex-div and cum-div?	1

TOPIC/ SUB TOPICS	SPECIFIC OBJECTIVES	TEACHING AND LEARNING STRATEGIES	TEACHING AND LEARNING RESOURCES	ASSESSMENT	ESTIMATED NO. OF PERIODS
8.4 Investments in stocks and shares	By the end of this sub-topic the student should be able to distinguish between investment in stocks and shares.	<p>ii) Teacher to recommend on the discussions of the difference between ex-div and cum-div.</p> <p>By using charts or diagram, teacher to guide students to discuss distinction between investment in stocks and shares for instance government bond, treasury bills, stocks and shares in limited company by using library and Internet search.</p>	Library and Internet search.	Is a student able to distinguish between investment in stocks and shares?	1
8.5 The format and Accounting entries of Investment Accounts.	By the end of this sub-topic the student should be able to describe the format of investment accounts and its treatment in the books of account.	Teacher to guide students to emphasize the format of investment account such as nominal value column, income column and capital value column-by using charts of accounts.	Charts of accounts.	Is a student able to describe the format of investment accounts and its treatment in the books of account?	10
8.6 Purchase and sale of fixed interest securities.	By the end of this sub-topic the student should be able to show entries for the purchase and sale of investments.	Teacher to guide students to prepare the entries for the purchase and sales of investment and compute interest yield by using charts of accounts.	Charts of accounts	Is a student able to show entries for the purchase and sale of investments?	4
8.7 Year-end Entries	By the end of this sub-topic the student should be able to show the year-end entries in the ledger and final accounts.	<p>i) Teacher to guide discussions to arrive at recording the year-end entries in the ledger and final accounts such as accrued interest receivable and profit or loss on the sale of investment by using accounting charts.</p> <p>ii) Teacher to give assignment to the students to record the year-end entries in the ledger and final accounts.</p>	Charts of accounts	Is a student able to show the year-end entries in the ledger and final accounts?	4

TOPIC/ SUB TOPICS	SPECIFIC OBJECTIVES	TEACHING AND LEARNING STRATEGIES	TEACHING AND LEARNING RESOURCES	ASSESSMENT	ESTIMATED NO. OF PERIODS
8.8 Investment in shares	By the end of this sub-topic the student should be able to: a) record the accounting entries for investment in shares.  b) determine when to declare and recognize dividends to be recorded in the books of accounts.	i) Teacher and students to discuss the accounting for investment in shares by using accounting charts.  ii) Teacher to provide assignment for the students to practice on recording investment in shares by using charts of accounts.  i) Teacher to guide discussions to arrive at determination and declaration of the period for recording dividends in the books of accounts by using accounting charts.  ii) Teacher to provide individual assignment to the students to determine and record dividends in the books of accounts by using accounting charts.	Charts of accounts	Is a student able to record the accounting entries for investment in shares?  Is a student able to determine when to declare and recognize dividends to be recorded in the books of accounts?	8 2
9.0 BRANCH ACCOUNTING	By the end of this sub-topic the student should be able to: a) describe the nature and meaning of the term branch.	i) Through think-pair and share, teacher to guide the students to discuss the term branch by using library search.  ii) Teacher to provide assignment to the students in groups to discuss the nature and meaning of branch by using library search.	Library search	Is a student able to describe the nature and meaning of the term branch?	1
9.1 Nature and meaning of Branch Accounts	b) Discuss the feature of branches.	i) Teacher to use the questions and answers technique to discuss the nature and features of branches.  ii) Teacher to provide group discussion to discuss the features of branches.	Library search	Is a student able to discuss the feature of branches?	1

TOPIC/ SUB TOPICS	SPECIFIC OBJECTIVES	TEACHING AND LEARNING STRATEGIES	TEACHING AND LEARNING RESOURCES	ASSESSMENT	ESTIMATED NO. OF PERIODS
c) Differentiate between autonomous and non-autonomous branches.	i) Students to brainstorm in groups to discuss the difference between autonomous and non-autonomous branches using library search and Internet search. ii) Students to make presentation in the class on the differences between autonomous and non-autonomous branches.	Teacher to demonstrate to the students on how to prepare different forms of branch accounts such as, branch stock account, goods sent account, branch adjustment account and branch debtors' account through charts of accounts.	Library and Internet search.	Is a student able to differentiate between autonomous and non-autonomous branches?	1
d) prepare different forms of branch accounts.		Teacher to demonstrate to the students on how to prepare different forms of branch accounts such as, branch stock account, goods sent account, branch adjustment account and branch debtors' account through charts of accounts.	Charts of accounts	Is a student able to prepare different forms of branch accounts?	10
9.2 Non-autonomous/integrated branches (Head office Maintains full set of accounting records)	By the end of this sub-topic the student should be able to: a) give examples of businesses with non-autonomous branches.  b) record relevant accounts for the transactions of non-autonomous branches.	Teacher to guide students to narrate on examples of businesses with non-autonomous branches by using the available companies/firms in the country as examples.	Branch companies/firms that are available in the country	Is a student able to give examples of businesses with non-autonomous branches?	1
9.2.1 Transactions at branches	By the end of this sub-topic the student should be able to record relevant books of account of the Head office and Branch.	Teacher to demonstrate to the students to record relevant books of account for the Head Office and Branch, such as goods sent to branch account, branch stock account, branch expenses account,	Charts of accounts	Is a student able to record relevant accounts for the transactions of non-autonomous branches?	10
			Charts of accounts	Is a student able to record relevant books of account of the Head office and Branch?	10

TOPIC/ SUB TOPICS	SPECIFIC OBJECTIVES	TEACHING AND LEARNING STRATEGIES	TEACHING AND LEARNING RESOURCES	ASSESSMENT	ESTIMATED NO. OF PERIODS
9.2.2 Goods invoiced to branch at selling price, cost price and at cost plus.	By the end of this sub-topic the student should be able to record goods invoiced to branch at selling price, cost price and at cost plus.	Teacher to guide the students to record in the books of accounts by using charts of accounts, goods invoiced to branch at cost price, cost, plus and at selling price.	Charts of accounts	Is a student able to record goods invoiced to branch at selling price, cost price and at cost plus?	10
9.3 Autonomous branches (Branch maintains full set of accounting records)	By the end of this sub-topic the student should be able to: a) distinguish the characteristics of autonomous branch from a non-autonomous branch.	i) Students to search information from library, internet and experts on distinctions of the characteristics of autonomous branch from non-autonomous branch.  ii) Teacher and students to discuss on distinctions for the characteristics of autonomous branch from a non-autonomous branch and give conclusion.	Library, Internet and Experts.	Is a student able to distinguish the characteristics of autonomous branch from a non-autonomous branch?	2
	b) Transactions with autonomous branch.	i) Teacher to guide students to demonstrate on the recording of transactions with autonomous branch in the books of accounts using charts of accounts.  ii) Teacher to give individual assignment to record transactions of autonomous branch in the books of account using charts of accounts.	Charts of account	Is a student able to record transactions with autonomous branch?	10
	c) Prepare Head office current account.	Teacher to demonstrate to the students on the preparation of the head office current account using charts of accounts.	Charts of accounts	Is a student able to prepare head office current account?	8
	d) Prepare branch current account.	Teacher to demonstrate to the students on the preparation of the	Charts of account	Is a student able to prepare branch	8

9.4 Accounting for items in transit	By the end of this sub-topic the student should be able to: a) describe problems/ complications of goods in transit and cash in transit  b) record the adjustment of goods in transit and cash in transit in the books of account (branch current account) and in the financial position (Balance sheet).	<p>Teacher and students to discuss on the descriptions of problems or complications of goods in transit and cash in transit involved in accounting for branches.</p> <p>i) Teacher to guide students to record the adjustments of goods in transit and cash in transit in the books of account (branch current account) and in the statements of financial position using charts of accounts.</p> <p>ii) Teacher to give individual assignment to the students to record the adjustments of goods in transit and cash in transit in the books of account (branch current account) and in the statements of financial position.</p>	Charts of accounts	<p>Is a student able to describe problems/ complications of goods in transit and cash in transit?</p> <p>Is a student able to record the adjustment of goods in transit and cash in transit in the books of account (branch current account) and in the financial position (Balance sheet)?</p>	8 8

## **FORM VI**

### **CLASS COMPETENCES**

At the end of form six, student should demonstrate ability to:

1. Take responsibility as a member of a group for jointly decided actions and decisions in Accounting discipline
2. Make appropriate use of technology in solving problems at the individual and community level.
3. Use science and technology effectively and critically showing responsibility towards the Accounting procedures
4. Demonstrate and understand the world business transactions as a set of related systems by recognizing that problem solving contexts do not exist in isolation
5. Collect, analyze, organize and critically evaluate financial information
6. Identify and solve problems and make decisions using critical and creative thinking

### **CLASS OBJECTIVES**

At the end of this course, the student should be able to:

1. Have a sound knowledge of the analytical and interpretive aspects of the Accounting function of analyzing, interpreting financial data and reporting the meaningful implications of this data.
2. Create business opportunities, creatively solve problems and take risks, respecting the rights of others and environmental sustainability.
3. Acquire and apply essential business knowledge, skills and principles to productively and profitably conduct business in changing business environment.

	b) compute changes in partners' profit sharing ratios on retirement.	Using tables for calculations, teacher to guide students on the computation of the changes in partners' profit sharing ratios on the retirement.	Table showing computation of the change in partners' profit sharing ratio.	Is a student able to compute changes in partners' profit sharing ratios on retirement?	2
	c) prepare relevant books of account on retirement of partnership.	i) Teacher and students to prepare relevant books of accounts on the retirement of a partnership using different charts of accounts ii) Teacher to give individual assignment to the students on the computation and the preparation of different books of accounts using charts of accounts.	Chart of accounts	Is a student able to prepare relevant books of account on retirement of partnership?	4
<b>2.0 PAYROLL ACCOUNTING</b>					
2.1 Concept of Payroll accounting	By the end of this sub-topic the student should be able to express the meaning and objectives of payroll accounting.	Using information from library teacher and student to use questions and answers technique to come up with the meaning and objectives of the payroll.	Library search	Is a student able to express the meaning and objectives of payroll accounting?	1
2.2 Employee's Basic Pay	By the end of this sub-topic the student should be able to: a) identify the basic pay of an employee in different basis.	Students to form groups to identify the basic pay of an employee in monthly basis, quarterly basis and/or annual basis using table of basic pay on different basis.	Table showing different basic pay in different basis and rates.	Is a student able to identify the basic pay of an employee in different basis?	1
	b) compute the basic pay of an employee.	i) Teacher to guide students on the computation of the basic pay of an employee. ii) Teacher to give assignment to the students on the Calculation of the basic pay.	Charts showing computation of basic pay of an employee	Is a student able to compute the basic pay of an employee?	
2.3 Calculations for gross pay of an employee	By the end of this sub-topic the student should be able to identify and compute gross pay of an employee.	Students through group discussion should identify and compute the gross pay of an employee by adding other income received to basic pay.	Sample of salary slip and payroll.	Is a student able to identify and compute gross pay of an employee?	1

TOPIC/ SUB TOPICS	SPECIFIC OBJECTIVES	TEACHING AND LEARNING STRATEGIES	RESOURCES	ASSESSMENT	ESTIMATED NO. OF PERIODS
2.4 Calculation of Various deductions from the employee's pay.	By the end of this sub-topic the student should be able to: a) compute all compulsory/statutory deductions of an employee's pay.  b) compute all non-compulsory deductions of an employee's pay.	Teacher to guide students to the computations of statutory/ compulsory contributions (deductions) such as, P.A.Y.E tax, tax relief N.S.S.F or LAPF, P.P.F etc.	Sample of salary slip	Is a student able to compute all compulsory/statutory deductions of an employee's pay?	2
2.5 Net Pay calculations	By the end of this sub-topic the student should be able to calculate the net pay of an employee's pay.	Teacher to guide students to the computations of all non-compulsory contributions (deductions) such as, salary advance, loans payments, voluntary payments etc.	Sample of a salary slip	Is a student able to compute all non-compulsory deductions of an employee's pay?	2
2.6 Preparation of Payroll Account	At the end of this sub-topic the student should be able to: a) prepare payroll account of an employee's pay.	Students to form a group to discuss on the identification and computation of the net pay of an employee's pay.  i) Teacher to guide students on the preparation of the payroll account of an employee's pay, employee's earnings statement. ii) Teacher to give an individual assignment to students for the preparation of employee's earnings statement and journal entries of Payments and deductions.	Payroll and a sample of Salary Slip Charts of account	Is a student able to calculate the net pay of an employee's pay?  Is a student able to prepare payroll account of an employee's pay?	4
2.7 Preparation of Cash Payments analysis for employees.	By the end of this sub-topic the student should be able to summarize on cash payments analysis for employees payroll.	b) treat various payments and deductions in the journal.	i) Teacher to guide students to treat various payments and deductions in the journal, using charts of accounts.  ii) Teacher to give an individual assignment to students for the preparation of journal entries for the payments and deductions.	Charts of accounts	Is a student able to treat various payments and deductions in the journal?
			Teacher to give a group assignment to the students on the preparation of cash payment analysis for the employee's payroll using charts of accounts.	Charts of accounts	Is a student able to summarize on cash payments analysis for employees payroll?
